Summary

Front-End Developer with 2+ years of experience building modern web applications with React and JavaScript. Strong background in CMS development, reusable components, and modernizing legacy systems to improve usability and scalability. Design background helps bridge the gap between clean visuals and practical, user-focused development.

Technical Skills

- **Frontend:** React, JavaScript (ES6+), HTML, CSS, Bootstrap
 - **Backend:** Node.js, Express, MongoDB, REST APIs, JWT
 - **Tools & Practices:** Git, Jira, Agile, CI/CD (Render), Salesforce
 - **Additional:** .NET, C#, MySQL, UX/UI Design
-

Professional Experience

VacationPort (Remote) — Software Developer I | July 2024 – Present

- Build and maintain CMS-driven client websites using HTML, CSS, JavaScript, and Bootstrap
- Develop reusable UI components, including a configurable search feature used across multiple sites
- Designed 10+ modern CMS templates, improving site quality and speeding up launch timelines
- Migrated 300+ legacy websites to a new platform, reducing technical debt and supporting future development
- Created 4 CMS themes to expand customization options for clients
- Contributed as a core member of a 6-8 developer Agile team, turning client requirements into production-ready features

Power Express Delivery (Carmel, IN) — Amazon Delivery Associate | December 2023 – July 2024

- Maintained 98%+ delivery accuracy in high-volume, time-sensitive conditions
- Built strong habits around reliability, time management, and attention to detail

EZAdsPro (Carmel, IN) — Senior Graphic Designer | December 2017 – March 2023

- Led design work for 50+ clients across digital and print
 - Turned marketing and branding goals into clean, user-focused designs
 - Helped shift legacy workflows toward more modern, digital-first approaches
 - Worked directly with clients to gather requirements and deliver tailored solutions
-

Projects

Food Chain Rumble (WIP) — Full-Stack MERN Application

- Building a full-stack app with authentication, leaderboards, and community features
 - Developed REST APIs and implemented state management with Redux Toolkit
 - Designed scalable MongoDB schemas for user and match data
-

Education

- **Ivy Tech Community College** — AAS Software Development, 2023
- **Ball State University** — BFA Visual Communication, Minor in Marketing, 2017
